

Leather Goods Quality Control Checklist (Bulk Orders)

Tick boxes during sample approval and pre-shipment inspection.

Materials

- Leather grade matches approved sample (full-grain/top-grain/vegan)
- Color/shade within tolerance; no patchiness or stains
- Leather thickness matches spec (\pm tolerance)
- Lining material correct; no fraying
- Hardware correct finish; no scratches; YKK or approved zipper brand

Construction

- Stitch density consistent; no loose threads
- Edges clean (painted/burnished) with no cracks
- Reinforcement at stress points (handles, corners, strap anchors)
- Zippers run smoothly; sliders aligned
- Pockets and card slots sized correctly

Branding & Packaging

- Logo placement matches artwork and tech pack
- Deboss/foil clarity consistent; no over-burn
- Hang tags, barcodes, inserts as approved
- Packaging correct (polybag, dust bag, gift box, cartons)
- Carton markings correct for export

Final Checks

- Dimensions within spec; weight within spec
- Function check: closures, snaps, magnets, buckles
- Surface free of glue marks; no odor issues
- Random drop/handle pull test (where relevant)
- AQL sampling plan documented
